

**User Registration, Login and
New account:**

As a new user, I want to easily sign up for a PetPals account using my email and password, so that I can start sharing adorable pictures of my pets.

As a registered PetPals user, I want to log in quickly using my email and password, ensuring a secure and personalized experience for showcasing my pets.

As a user, I want to see a "Forgot Password" option that allows me to reset my password by receiving a link via email, ensuring access to my account if I forget my credentials.

As a user, I expect clear error messages if I enter incorrect login credentials or try to register with an existing email, ensuring a smooth onboarding process.

As a registered PetPals user, I want the option to stay logged in, so that I don't have to enter my credentials every time I want to share pet moments.

As a user, I want to be able to create a new account using my email address and a secure password, so that I can access the website's features and services.

As a user, I want to receive a confirmation email after registering, containing a verification link to activate my account.

As a user, I expect a smooth and intuitive login process with error messages displayed clearly if there are any issues with my credentials.

Adding and Sharing Pet Moments and Managing Posts:

As a pet owner, I want to easily upload pictures and videos of my pets, accompanied by captions and hashtags, to create engaging and memorable posts.

As a pet owner, I want to easily upload pictures and videos of my pets, accompanied by captions and hashtags, to create engaging and memorable posts.

As a user, I want the ability to organize my pet posts into categories or themes, allowing me to curate a personalized feed.

As a pet enthusiast, I want to explore posts from various pet owners, liking, commenting, and sharing the joy of pet ownership within the PetPals community.

As a user, I need the option to add multiple pets to my profile, each with its own dedicated space for sharing moments.

As a user, I want to be able to create a new account using my email address and a secure password, so that I can access the website's features and services.

As a user, I want to receive a confirmation email after registering, containing a verification link to activate my account.

As a pet owner, I want to be able to create a PetPals account for my pet, using relevant details and a profile picture, so that I can share their adorable moments.

As a pet owner, I want to be able to create a PetPals account for my pet, using relevant details and a profile picture, so that I can share their adorable moments.

As a PetPals user, I want to easily share pictures and videos of my pets, including captions and hashtags, to engage with the PetPals community.

As a pet enthusiast, I want to see a feed of pet posts from other users, allowing me to discover and connect with fellow pet lovers.

As a PetPals user, I want the ability to edit or delete my posts, ensuring control over the content I share with the community.

As a user, I need the option to like, comment, and save posts from other users, fostering interaction and building connections within the PetPals community.

As a pet owner, I want to have a profile page showcasing my pets and a feed of my own posts, creating a personalized space within the PetPals platform.

**Administrator Role for
PetPals:**

As a PetPals admin, I need a secure login system with role-based access control, so that I can manage the backend functionalities of the PetPals platform.

As an admin, I want to be able to moderate and remove inappropriate content, ensuring a positive and safe environment for all PetPals users.

As an admin, I need tools to manage and respond to user inquiries and support requests efficiently, maintaining a high level of customer satisfaction.

As an admin, I want to be able to customize the appearance of the PetPals platform, including banners and colors, to align with the brand and enhance user experience.

As an admin, I need to have analytics tools to track user engagement, popular pet trends, and overall platform performance.

As an admin, I want the ability to feature certain pet posts, creating a spotlight for exceptional and heartwarming pet content within the PetPals community.

As an admin, I need to have tools to manage and update static pages, such as the PetPals homepage and community guidelines.

As an admin, I want the ability to create and manage pet-themed events, contests, and campaigns to engage the PetPals community and attract new users.

As a user, I want the option to reset my password if I forget it, by receiving a password reset link via email.

As a user, I expect a smooth and intuitive login process with error messages displayed clearly if there are any issues with my credentials.
